So thinks the Man whose Tire bill averages nearly half of his entire Season's running Expense, when it need not average one-fourth, if he would only "Work his head" and, once for all, learn the

THERE are Car Owners who reg-ularly get 25% to 50% MORE Mileage, per Dollar invested in Tires, than do the Owners of other

Cars driven with equal care, under equiva-lent road conditions. The latter type of Owner is apt to conclude offhand (from his own experience) that all Tires must be Short-lived

and Unsatisfactory.

Now this is to tell him that there is as much difference between the Mileage and Resilience of different brands of Tires, when the facts are investigated, and proven through actual Service, as there is difference between the Color of Cats—when viewed by Daylight.

This is to inform him that three Rub-

ber Factories using precisely the same quantity and quality of *Materials* might, and sometimes do, produce (through the difference in their Rubber EXPERIENCE and efficiency methods) Tires of such widely different Mileage-Result as to average 3000 Miles, 4000 Miles, and 5000 Miles respectively—under parallel road

OST of production is therefore no sure guide to the Mileags and Resilience which can be put into such a subtle and "temperaental" product as the Rubber in a Pneumatic Tire.

And, though The B. F. Goodrich Co. can, and does, put the most Mileage per Dollar invested by the User, into Good-rich Safety-Tread Tires, they do not interpret this as a reason why they should charge a higher price, to include an Insurance Premium which would place their "Adjustment Basis" beyond the safe and reasonable minimum that Bad Roads and

Careless Driving make necessary.

Because of its Manufacturing Advantages, its Precision Methods, and Waste-reducing Processes (resulting from its 45 years' EXPERIENCE in the working of Rubber), The B. F. Goodrich Co. can afford to and does, offer the greatest Mileage in Tires at the lowest price per Mile. the lowest price per Mile.

It sells the standard grade of Goodrich Safety Tires at 10% to

> greater Mileage but cannot prove delivery of greater Mileage in actual use. Why pay MORE for any Tire? THE B. F. GOODRICH CO.

30% lower prices than other non-skid brands which "Guarantee"
